

Navigate the gray areas of inmate health **with the clarity and confidence of Quest**

**Every day across the US, correctional facilities** work to ensure the health of their incarcerated populations—a complex challenge often complicated by limited resources. The key to sustainable success is strong support from an experienced partner who understands your needs and shares your commitment.

**That's why correctional facilities of all types nationwide trust their diagnostic services to Quest.** We provide our quality testing, medical expertise, and responsive service to some of the nation's largest institutions.

**Why Quest?**

**300+**

correctional facilities served

**80K**

logistical stops daily, nationwide

**250**

on-staff clinical experts

**675**

EHR interface connections

**Cost management**

By emphasizing test utilization efficiency and strategic logistics, Quest drives value to help you make the most of your time and budget resources.

**Nationwide footprint with prompt local service**

Our coast-to-coast service area allows us to provide rapid response and turnaround times to meet the demands of your institution.

**Access to expertise and industry-leading support**

Quest provides on-staff clinical experts in drug monitoring, infectious disease, and more to assist with all of your diagnostic needs.

**Ease of use for improved efficiency**

To help streamline your lab-related tasks and care workflows, we integrate with 95% of EHR systems and offer seamless online test ordering and data management through free access to our Quantum® platform.

## CDC recommendations for men's correctional settings

From intake screening to annual testing, we bring clarity to gray areas. Rely on the Quest correctional health team for specialized expertise and responsive support for all of your population health objectives.

Comprehensive portfolio of  **3,500+ tests** from routine to esoteric

Test	Intake	Annual
HIV	All persons	Exposed or symptomatic
HBV	All persons	Exposed, symptomatic, or routine
HCV	All persons	Exposed, symptomatic, or routine
TB and LTBI	All persons	All persons
Gonorrhea & Chlamydia	M≤30	Exposed or symptomatic
Syphilis	Varies by location	Symptomatic

Source: <https://www.cdc.gov/correctional-health/recommendations/index.html>. CDC recognizes the ability of facilities to put these recommendations into practice may vary based on resources, on-site healthcare capacity, population turnover, and other factors.
