

SUBSTANCE OF ABUSE TESTING REGISTRATION

(ON-SITE, NON-MEDICAL, NON-AUTOMATED SCREENING)

State Registration # R 9663

Effective Date: 01/01/2024

Expiration Date: 12/31/2024

Entity Name: Quest Diagnostics Incorporated ATTN: QA
Department

Mailing Address: 10101 Renner Blvd.
Lenexa KS 66219

Entity Operator: Jason S Hudson, PhD

Site Address: 6600 SW Hampton St
Tigard OR 97223

The above entity has registered with the Department to perform onsite, non-medical substance of abuse screening using manual, non-automated methods and has certified that only SOA screening kits approved by the U.S. Food and Drug Administration (FDA), or alcohol screening kits approved by the U.S. Department of Transportation (DOT) as defined by the National Highway Traffic Safety Administration Docket No. 94-004, Notices 2, 3 and 4 published in the Federal Register, will be used for test performance. **Oregon law [ORS 438.435(6)] requires confirmatory testing by a CLIA Certified laboratory, if the test results are to be used to deprive or deny any person of any employment or benefit.** Registration authorizes the entity to perform substance of abuse screening only at the location(s) identified and on file with the Health Services, Laboratory Compliance and Quality Assurance Section.

Enclosed is your Registration to perform testing for substances of abuse in the state of Oregon. Please verify the accuracy of the information. Notify Laboratory Compliance immediately if the information needs correction.

The Law requires registration on an annual basis. The registration is good through December 31 of each year. The law also requires that this registration or a copy be displayed at all times in a prominent place in each location where testing occurs in view of your clients. The original registration should be kept at the location indicated on the registration enclosed and copies made for each satellite location.

The registration is issued to a specific entity and is not transferrable. Notify Laboratory Compliance regarding any change which may affect this registration (i.e. entity or ownership name, entity location, additional testing location) prior to effective date of change.
